THE SPRINKLING BIDS REPORTED EXCESSIVE BY THE STREET COMMITTEE.

A Strong Report Recommending That They Be Rejected Prepared for the Mayor—William Callahan, the Next Nominee for Street Commissioner—The Jefferson Barracks Appropriation—City Hall Matters.

The bids of the associated sprinkling contractors for the six districts surrendered by the St. Louis Improved Street Sprinkling Co. will be rejected.

This morning the Committee on Streets, to which the bids were referred, decided in a very short session to present an advisory report to the Mayor, recommending that the bids be rejected.

The committee is composed of President George Burnett, Commissioner McMath and Acting Street Commissioner Rauschenbach. The committee was called together this morning by Mr. Burnett to prepare a report for tomorrow's board of aldermen, and the sprinkling bids were taken up together with the estimates for the new work for the new bridge, which will span the river at the new South Broadway.

All the bids were considered exceptant as the report which is here given will show.

THE REPORT.

June 19, 1890.

To the Honorable Board of Public Improvements:

GENTLEMEN—Your Committee on Street Sprinkling hereby certifies that the accompanying tabular statement is a correct canvass of all the bids received for the six districts of the work advertised, as follows: Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Attention is also called to the marked discrepancy in three instances between bids made in January last for the same work in 1889 and bids made June 17 for the short period, by practically the same parties, viz:

District	Bidder	Amount asked for 1889	Amount asked for 1890
12	George Schell	\$3,671	\$4,000
13	Henry Mueller	3,070	3,805
14	Henry Mueller	3,070	3,805

Attention is further called to the following statement, showing the highest bids received for the entire season, and the lowest received for the short period in the remaining three districts:

District	Highest asked for 1889	Lowest asked for 1890
12	\$3,671	\$4,000
13	3,070	3,805
14	3,070	3,805

Respectfully,
GEORGE BURNETT,
R. E. McMAHON,
Committee.

It is expected that the report will be adopted by a unanimous vote and the board will then call for new bids with a view to getting bids from other sprinkling concerns. The committee also says that the report submitted to the board this morning will show that the bids are excessive and that the board will have to reject them.

ANTICIPATING STATE OF AFFAIRS developed by the dissection of the bids. They also say that the board will have to reject the bids and call for new ones.

The circumstances attending that demand, as the city officials furnish them, are as follows: When the Mayor, Board of Public Improvements and City Council were preparing to put extra carts in the six lower districts, Henry Mueller, one of the contractors, called on President Burnett and said that the sprinkling contractors would not work for a salary of sixty or ninety days' agreement or \$3 per day for the balance of the season. Mr. Burnett said that he would not do that, but that he would give them a salary of \$1 per day, and that he would give them a salary of \$1 per day, and that he would give them a salary of \$1 per day.

Important Meeting in the Mayor's Office.

A conference was held in the Mayor's office today, attended by representatives of the city and the Merchants' Exchange, to arrange for the execution of a committee to go to Washington and urge the passage of the bill for an additional appropriation for the maintenance of Jefferson Barracks.

A Gas Bill Under Consideration.

To-morrow afternoon the Council Committee on Public Improvements will take up ordinance authorizing E. D. Walsh, Rolla Wells and John Maguire and their associates to construct, operate and maintain a gas works and electric plant. The company agrees to furnish high power illuminating gas at 50 cents per thousand cubic feet and fuel gas at 40 cents per thousand. It also provides that should the city at any time during the existence of the franchise desire to light the streets with gas the company will agree to furnish the light at a rate to be fixed by the city.

Street Commissioner Callahan.

To-morrow evening, unless the present programme is materially altered, Mayor Noonan will send a message to the Council.

AN ADDRESS TO MEMBERS

THE EXCHANGE REAL ESTATE COMMITTEE ON THE PLANTERS' HOUSE SITE.

An Argument in Favor of the Purchase of the Planters' House Property by the Merchants' Exchange—Why It Is Deemed Desirable—A Vote to Be Taken on July 3.

At noon today the Real Estate Committee of the Merchants' Exchange held a meeting and, after consideration, adopted the following address:

To Members of the Merchants' Exchange:

The Real Estate Committee have recommended the directors to submit to your vote the purchase of the Planters' House property, provided the owners will accept \$300,000. It is the duty of the committee to state the reasons for recommending that such purchase be made for the best interest of the Exchange.

The Planters' House property is situated on the corner of the Exchange and the Chamber of Commerce buildings. It is a large and valuable piece of property, and its purchase would be a great benefit to the Exchange.

RESCUES HARD AT WORK, BUT MAKING LITTLE HEADWAY.

A Slight Hope That the Entombed Miners May Be Alive—The Mine to Be Entered at Another Point—Fatal Head-End Collision Near Atchison, Kan.—Young Ladies Injured in a Coach Accident.

DUNBAR, Pa., June 19.—The progress made last night by the rescuing party has not been nearly so satisfactory as was hoped. The men are still working steadily, but there has been a great deal of fallen wreckage encountered. Inspector Keigher has decided to attempt an entrance through another level. Men will be put to work at once and they will keep steadily at it in both chambers. It is thought the new heading may be more open. Men have been busy all night and are still in the Mahoning mine, locating the nearest heading toward the Hill mine chambers. The new attempt will be made at 10 o'clock to-day. The men who were entombed in the Hill mine have been seen by the rescuers. It is now twenty-two hours since the explosion occurred, and unless the men have some bits left in their buckets, hunger is pressing them sadly, if they are still alive. It is thought, however, that they are still alive. The men who were entombed in the Hill mine have been seen by the rescuers. RESCUES HARD AT WORK, BUT MAKING LITTLE HEADWAY.

A Slight Hope That the Entombed Miners May Be Alive—The Mine to Be Entered at Another Point—Fatal Head-End Collision Near Atchison, Kan.—Young Ladies Injured in a Coach Accident.

DUNBAR, Pa., June 19.—The progress made last night by the rescuing party has not been nearly so satisfactory as was hoped. The men are still working steadily, but there has been a great deal of fallen wreckage encountered. Inspector Keigher has decided to attempt an entrance through another level. Men will be put to work at once and they will keep steadily at it in both chambers. It is thought the new heading may be more open. Men have been busy all night and are still in the Mahoning mine, locating the nearest heading toward the Hill mine chambers. The new attempt will be made at 10 o'clock to-day. The men who were entombed in the Hill mine have been seen by the rescuers. It is now twenty-two hours since the explosion occurred, and unless the men have some bits left in their buckets, hunger is pressing them sadly, if they are still alive. It is thought, however, that they are still alive.

The statement in the Post-Dispatch
yesterday of the census up to date was a
clean scoop.

To the question Does enumeration
enumerate? there are numerous answers
that it does not.

The fashionable amusement in St. Louis
just now is getting up census parties for
the purpose of finding out who has been
left out.

We repeat our statement that up to
Tuesday night Maj. WIGGLES' census
enumerators had reported only 428,000 in-
habitants as enumerated in St. Louis.

One mail delivery in this office this
morning contained over one hundred
complaints of "failure to enumerate,"
and it stands to reason that the omissions
have been chiefly among the classes who
do not write to the newspapers.

SPEAKER REED has made the provoking
discovery that he cannot gag and dis-
franchise the West in both houses of
Congress. Before the session ends he
may find that his caucus spell is broken
and that he is no longer the autocrat of
either wing of the Capitol.

The Chicago Journal (Rep.) anticipates
a shortage of 100,000 names in the census
enumeration of that city and accounts for
it by intimating that the enumerators
were in too many cases appointed by the
influence of Congressmen to look after
their renomination rather than to take a
correct census.

The gloomy views which RUSSELL SAGE
and other Wall street notables take of
the Senate's action on silver were promptly
telegraphed to the West. This will help
to revive the popularity of the Senate in
the West. It will be noted that the Wall
street views and predictions are precisely
the same that were sent out when the
Bland bill was passed over SHERMAN'S
opposition and HAYES' veto.

The extension of time in reporting the
census, in order to remedy as far as pos-
sible the evident deficiencies, was a
sensible step, and another one is the order
to have the returns made public as soon as
they are sent in. This will materially
help the work of making the census less
incomplete, and Supt. PORTER deserves
credit for his promptness in meeting the
situation. We believe in giving PORTER
his due.

ALL confidence in the returns of the
pending census has been annihilated.
The denunciation of the Census Bureau's
working machinery is confined to no city,
section or party. The charges against it
embrace everything from incompetence
and negligence to the grossest kind of polit-
ical manipulation and deliberate crooked-
ness. Federal officers from St. Paul ar-
rested a lot of Minneapolis enumerators
on the charge of padding their returns
with 2,000 false entries and secured a verdict

mass of documentary proofs of the
charge. A Minneapolis attempt to recoup
the proofs was repelled and defeated by
an armed guard. There has been
enough scandal about the census work
to justify Congress in amending the law and
having the enumeration in cities all done
over again.

LOTTERY INFLUENCE IN CONGRESS.
The ability of the Louisiana Lottery to
perpetuate its pernicious monopoly by
buying such wretched States as North
Dakota and Louisiana is chiefly due to the
facilities afforded it by the United
States postal service for the transaction
of its infamous business.

Postmaster-Generals have asked again
and again for authority to withdraw the
mail service entirely from the lottery
business. Without the aid of that service
the Louisiana Lottery could not afford to
spend \$30,000,000 or \$40,000,000 in bribing
votes and buying control of State gov-
ernments. In response to a request in the
last report of the present Postmaster-
General three bills to prevent the use of
the mails in the lottery business were in-
troduced in the House, but they were
referred to committees that have so far
refused to report them.

What will be thought or suspected in
regard to this suppression? Everybody
knows that the lottery is dealing out
bribes with a lavish hand, and rumors un-
contradicted trace much of this bribery
fund to persons high in influence at
Washington. The United States Collector
at New Orleans is working with scandalous
openness and offensiveness for the
lottery in the Louisiana fight. One of his
subordinates was hanged by a mob of
anti-lottery men a few days ago.

The continued suppression by House
committees of all bills to deprive the
lottery of the use of the mails will be a
national scandal of unusual dimensions
for the majority party to carry in the fall
elections. If Speaker REED and the
powers that be under contract to protect
the lottery in its use of the mails, no
such contract can excuse the Republican
members who permit him to control their
action in that matter. They have the
power to pass the laws asked for by the
Postmaster-General. If two dozen of
them have the nerve to do their duty they
can get the support of enough Democrats
to overrule the Speaker and triumph over
the lottery gang.

For the second or third time the State
Department has made the semi-official
announcement that our Government will
refuse to put itself into a trap by setting
up a preposterous claim that the Russian
treaty ceding Alaska to us made a mare's
nest of Behring's Sea. It is an-
nounced that our captures of sealers
more than three miles from land will be
defended by Mr. BLAINE solely on the
ground that the seals are born on our soil
and that therefore we have a right to
follow them to sea and protect them
from extinction at any distance from
land. If such a claim holds good with
reference to seals, why not with reference
to the immense shoals of fish hatched in
our rivers? International courtesy and a
desire to preserve the seals might confer
this right upon us with reference to seals,
but has not yet done so. That is the very
concession we are negotiating for, and
captures of poachers made in advance of
the concession may cost us a considerable
sum, if we are to judge from the tone of
Lord SALISBURY'S organs.

HON. R. T. VAN HORN'S paper, the
Kansas City Journal, is one of the leading
organs of the Republican party, both in
Missouri and Kansas. It rejoices over the
union of Western Republicans and Dem-
ocrats for free coinage in the Senate;
says the people do not care what becomes
of the tariff bill so long as this sort of
silver legislation is possible, and serves
this notice on the House and the Presi-
dent:

The House will have to come to the Senate
terms on this question, and if the President
has the least appreciation of the situation he
will sign the bill. In national politics the
fate of any man is sealed who has a hand in
defeating the complete reorganization of sil-
ver. Patience on this subject has ceased to
be a virtue. The people simply will not
stand this gold bug business any longer.

Will the four Missouri Republicans in
the House hearken to this warning from
home, or will they still wear the gold bug
collar REED has fastened on their necks?

It is announced that the brazen young
Duke of Orleans is to enter the Russian
army as soon as he has been sufficiently
lionized in London for his wicker-basket
heroism. He is acting on the theory
which has the support of history that the
path of military glory is the shortest cut
to the French heart. The young Prince
Napoleon acted upon that theory and he
is moldering in his grave. To succeed in
his plan the Duke needs war in Europe;
then plenty of danger and commanding
courages under it, then lots of luck to
come out alive and an opportunity in
France to realize on his capital. The
chances of success are about equal to the
chances of drawing a prize in a lottery
swindle.

MR. CLEVELAND alienated the demand of
the Western Democrats for the free coin-
age of the silver dollar as soon as he was
inaugurated. He even demanded the re-
peal or suspension of the Bland law. Sen-
ator BECK'S great silver speech, however,
allotted Mr. CLEVELAND, and the silence
which thereafter prevailed within the
Democratic ranks on both sides of the
silver question was not broken by the
convention which nominated Mr. CLEVELAND
for re-election. Now Senator VEST
and Mr. CLEVELAND have been converted

to the Western view of silver. The public
would like to know what authority Mr.
VEST has for this statement.

ALL hopes of peace and an ultimate
restoration of neighborly feeling between
St. Paul and Minneapolis have vanished
since the arrest of the Minneapolis census
padders through the supposed agency of
St. Paul. Great public meetings in Min-
neapolis are threatening St. Paul with
boycotts and all sorts of hostilities in the
vein of the ancient Roman cry of "delenda
est" against Carthage. Both cities seem
ready to re-enact the bloody non-inter-
course laws with which Syracuse and
Ephesus fought each other.

The threatened outbreak of the North
ern Cheyennes has occasioned the usual
outbreak of bloodthirsty demands for the
wiping out of bad Indians, but as the
facts come out it is manifest that the
Cheyennes are not without grievances.
The cattlemen are said to be encroaching
steadily on the reservation lands and the
Indians retaliate by killing the cattle of
the trespassers. The trouble should be
carefully investigated and full justice
should be given the Indians.

The news that the American Standard
Oil Trust has captured the greater part of
the oil trade of Western Continental
Europe, and is preparing to run out all
competitors in the old country is not dis-
pleased to Americans. We are com-
pensated in some measure for trust oppres-
sion when the trusts take possession of
foreign markets and sell American prod-
ucts in them.

A Word From Montana.
From the Inter-Mountain (Rep.) of Butte, Mont.
Just as the first impression of the Inter-
Mountain is going to press the news comes
from Washington that President Harrison
is pretty certain to veto any bill for the
free coinage of silver which Congress may pass.

A veto of such a measure would probably
dispose of any second term aspirations that
he might entertain, for the next national con-
vention would show every Western State ar-
rayed solidly against him, as well as a good
many Eastern and Southern States.

The Republicans of this country propose to
have free coinage and they propose to have
a President who will assist them get it. They
will brook no opposition from an Executive
who considers his knowledge of the financial
needs of the country greater than the com-
mon wisdom of a Congress elected by the
people largely upon the silver issue and in
consequence of Democratic opposition to the
white metal.

Shameful Gift Taking.
From the Chicago Herald.
John Wananmaker's gift of a \$30,000 cottage
at Cape May to Mrs. Benjamin Harrison, and
the latter's prompt acceptance of the
gratuity, easily make up the most shameful
incident of an administration that has been
characterized by scandal and disrepute. It is
a pity that the country has seen since the
second term of Grant. It is bad enough that
John Wananmaker, who raised a gigantic cor-
ruption fund in 1888, should have been paid
for his services by an appointment to the
Cabinet, but it is even worse that he should
characterize his official career by making such
gifts to the wife of the man who placed him,
and that his insulting generosity should be
accepted without a blush.

Missouri's Criminal Code.
From the Jefferson City Tribune.
That there is something radically wrong
with the criminal code no one can doubt. It
seems to be arranged with a special view
of cheating justice. There is no such thing as
speedy justice in the prosecution of murder-
ers. Every opportunity is afforded for delays
until the witnesses are scattered or dead and
the prosecution worn out. The fact that a
man is under arrest and indictment for murder
in the first degree in St. Louis is no reason
why a life insurance company should refuse
to take a risk on his life. The chances are 100
to one, no matter how brutal the murder may
have been, that he will never hang. And the
rural districts are gradually following in the
wake of the cities.

Song and Pio.
De Vio's Reluctances.
Miss Kellogg did not make much of a suc-
cess. She was a slender girl, bashful and
timid, and her manner was not calculated to
inspire confidence. She was the first to
first stop for breakfast at the Syracuse depot.
Brigoli was via vis to her eating chops,
eggs, breakfasts, stewed chicken, etc., as he
was the greatest eater of all the singers I ever
saw. Seeing Miss Kellogg eating a piece of
pie and drinking a glass of milk he asked her
if she would not eat with him. She refused,
but he did not mind. He then ate another
breakfast, breakfasts, chops, chops, chops,
and drink upon drink, otherwise you will
never be able to sing. You are too weak.
Take my advice (and I know very well that she
did take his advice) and become a good eater,
too."

Feasting Trusts and Coddling Capital.
From the Philadelphia Telegraph (Rep.).
The manufacturers have nothing to fear re-
garding the continuance of the protective
policy from the free-traders; that good policy
is put in peril only by the McKinley sort of
dishonest brokers in politics, who are making
their efforts to foster trusts and coddle the
capitalist class at the cost of the masses of
the people. If it is they who are killing pro-
tection itself by attempting to make it appear
that their class tariff legislation truly repre-
sents protection. It represents class greed,
and the people know it; and that is why gen-
eral, wholesome protection is losing fastness
of gaining ground.

Protection's Product.
From the New York World.
A Pittsburgh Journal prints the following list
of persons and estates in that city, with the
reported wealth of each in millions: Mrs.
Mary Schenley (for forty years a resident of
Kauai), \$5; Andrew Carnegie, \$5; J. M. Mc-
Cullough, \$5; Henry Phipps, Jr., \$5; George
Westinghouse, Jr., \$5; Hostetter estate, \$5;
Wash estate, \$5; J. Vandergrift, \$5; Chase,
\$5; J. E. M. Howe, \$5; C. G. Hunsley,
\$5; Denny estate, \$5; Schoonberger estate, \$5.
In addition to these are given the names of sixty
individuals, each of whom is estimated to be worth
from \$1,000,000 to \$5,000,000. The majority of
these are "protected" manufacturers.

Getting Ready for the Fair.
From the Kansas City Times.
In Chicago the new light opera of light in-
gredients Robin Hood is drawing large audi-
ences in the situation where the distinguished
gentleman from Sherwood relieves his uneasy
guilt of their broad plaudits and leaves only a
return ticket in their wallets seems to appeal
to the Chicago nature in an irresistible way.
The production appears in fact to be a sort of
public rehearsal of what plans should be
played by the natives when the World's Fair

shall entice the unwary to their doors, and as
such is meeting a tremendous popular ap-
proval.

MEN OF MARK.

Telegraph to the Post-Dispatch.
IRONTON, Mo., June 19.—There was a gen-
eral air of expectancy about everyone con-
nected with or interested in the Chambers
case as they gathered in the courtroom to-
day. The jury panel marched in and the names
of the twelve selected by the attorney were
called off. The jurymen who will try the case
are J. L. Baldwin, carpenter, Ironton; J. M.
C. Young, farmer; Wm. Henson, farmer;
John Bond, farmer; John Baumgardner,
farmer; J. R. Sutton, farmer; Marcius
Sweeney, farmer; Ed Conley, farmer;
Aaron Elliot, stonemason; J. W. Strick-
land, farmer; A. Buckner, farmer, and
Q. J. Vance, farmer. Prosecuting Attorney
Warfield read the indictment to the jury
and then continued the case for the state. He said
"I expect the testimony will show about as
follows: On or about the 1st of October last
the Sheriff of St. Louis County had placed in
his hands an execution for about \$35,000 and
upon this was indorsed a payment of \$15,000.
Dosenbach, Sheriff of St. Louis County,
was called. He said he was Sheriff of
St. Louis County, and that he had been in
office two years next November, and had known Mr. Chambers
for several years. He also stated that he
knew Mr. Bowman, and saw him alive the
last time on the morning of the shooting, hav-
ing seen him at the time he was shot. Mr. Dosenbach
identified the execution.

"What did you do?" asked Mr. Warfield.
"I consulted my attorney, Mr. McElhenny,
and told my deputy to go out and levy it. Mr.
Bowman could not pay the debt, and I told
my deputy to go out and levy it. He did not
know Mr. Bowman, and saw him alive the
last time on the morning of the shooting, hav-
ing seen him at the time he was shot. Mr. Dosenbach
identified the execution.

"Did you see Mr. Chambers?" asked Mr. Warfield.
"Yes, sir, I saw him at the time he was shot. He
was standing in the doorway of the house, and I
saw him at the time he was shot. He was standing
in the doorway of the house, and I saw him at the

ANOTHER GRAND FRAUD.

WHICH, IF TRUE, WILL PROVE TO BE THE GREATEST EVER DISCOVERED.

Men and Women Beware, and Hold Yourself in Readiness to Guard Against Future Embezzlements.

On February 11, 1889, in the city of Lyons, State of Massachusetts, there assembled together a body of men composed of merchants, mechanics, lawyers and insurance men who, after careful deliberation on the subject, finally concluded to lay the foundation and erect in the erection of a mammoth tower. One which would surpass anything of the kind in grandeur and firmness and remain an "Able" forever thereafter. The foundation is now completed in compliance with the laws of the State and is composed of some of the best material the State of Massachusetts has produced. The building up of the tower is progressing very rapidly; over 14,000 feet have been securely cemented within its circle. The originators and promoters of this magnificent "tower" are now extending their contracts throughout the Western country for the purpose of getting more material in order to create its progress. You are, therefore, requested to make your application as soon as possible in order to have your contract fulfilled before the top of the tower is reached—as it will be somewhat easier to reach the foundation now than it will be nearer to the top of this towering Order of "Able."

Q: "What is the order of 'Able'?"
A: "A beneficial fraternity incorporated in the State of Massachusetts, February 11, 1889, which pays sick benefits and endowments to its members while living, and to their heirs in case of death. It has two classes, No. 1 being the endowment and sick benefit class and in No. 2 a death benefit class is paid."

Q: "What is the cost of becoming a member of the order?"
A: "Medical examination, \$1.00; \$2 initiation fee, \$1 individual charter fee, \$1 fund certificate fee, making in all \$4.00; and after initiation dues at the rate of \$1 per quarter, or \$4 per year, and assessments upon proper notice."

Q: "Will it cost me \$2 for each certificate if I belong to more than one class?"
A: "If you belong to more than one class, at different times, it will cost you \$2 for each certificate; but if you make application to enter both classes at once, \$2 will cover the entire cost."

Q: "Why are the benefits divided into classes?"
A: "Because the order issues two forms of insurance, which must be assessed according to the benefits given; and to keep its funds 'pari passu'."

Q: "What are the benefits in Class No. 1?"
A: "Class No. 1 offers to members an endowment policy in amounts of two hundred, four hundred, six hundred, eight hundred, and one thousand dollars, payable in seven years, combined with a sick and accident benefit, in sums of five, ten, fifteen, twenty, and twenty-five dollars per week."

Q: "Is the certificate payable in full at the end of seven years?"
A: "Yes; unless a member has drawn sick or accident benefits, which are deducted from the amount of the certificate. With interest added, at the rate of 5 per cent, from the date of receiving benefits to the maturity of his certificate."

Q: "In case of death of a member in this class, what is paid to his heirs?"
A: "In case of death after one year's membership, the face of the certificate shall be paid to his heirs, and if he dies within a year, his heirs shall be entitled to a return of all assessments paid by him, less what amounts have been advanced to him in benefits with accrued interest; or they may elect to receive the assessments until the maturity of the certificate, when they shall be entitled to receive the benefit, but shall not be entitled to any other benefits from this order."

Q: "What benefits are given in class No. 2?"
A: "Class No. 2 issues plain death policies in amounts of five hundred, one thousand, two thousand, three thousand, four thousand and five thousand dollars, payable in case of death or one-half on proofs of loss of life."

Q: "What are the assessments in this class?"
A: "The assessments are graded according to age at entering, as per table, and are so arranged that a person entering at the age of sixty will have paid the same proportion towards maturity of death income, as a person of twenty years of age, as a person entering at the age of sixteen."

Q: "How often are assessments issued?"
A: "Assessments are issued only when necessary. There is no reserve fund in this class, and a sufficient amount is held to pay promptly all claims when presented. Experience proves, however, that the first years of an order assessment come much less frequently than in other orders."

Q: "How long a time is required for the settlement of claims?"
A: "All claims against the order will be paid immediately, and no time is lost in the factory proofs that a member or his heirs are entitled to the same."

Q: "Can I hold more than one certificate in this class?"
A: "Yes; provided the total amount does not exceed \$5,000."

Q: "Can a certificate be reduced at any time, should circumstances make it necessary?"
A: "Yes; by making proper application."

Q: "On proofs of total disability the member receives half of the amount of his certificate less any amounts previously paid?"
A: "Yes; provided the total amount does not exceed \$5,000."

Q: "How long can a member draw weekly benefits in class No. 2?"
A: "For ten weeks within any one period of twelve months. But in no case shall the total amount drawn exceed one-half the amount of the certificate."

Q: "Is a member entitled to sick benefits from the date of his certificate?"
A: "A member is not entitled to sick benefits from the date of his certificate, but he is entitled to them at any time thereafter, when a member has been sick for three consecutive days, and has been unable to work, and has been unable to receive any other benefits from his certificate."

Q: "Can a member hold more than one certificate?"
A: "Yes; provided the total amount does not exceed \$5,000."

Q: "Does every member pay the same rate of assessment?"
A: "Each assessment is graded by the amount of certificate the member carries."

Q: "What disposition is made of the money received from regular assessments due and unpaid?"
A: "Eighty per cent is used to pay sick and accident claims, 20 per cent is invested in bonds and first mortgages (guaranteed), or their first-class securities at interest."

Q: "Can a member reduce a certificate should circumstances make it necessary?"
A: "Yes; by making application through the lodge, and paying all assessments due and unpaid."

Q: "You must send your certificate to the Supreme Secretary, together with the application for a new one, and accompanied by five new certificates will then be issued, dated from time to time as the first certificate, less all benefits drawn on the first certificate?"
A: "Yes; provided the total amount does not exceed \$5,000."

Q: "What disposition is to be made of the benefits drawn on the first certificate?"
A: "The benefits drawn on the first certificate are accumulated in the Reserve Fund, i. e., the 20 per cent you are paying in bonds and mortgages, etc."

Q: "Is it to be held in the Reserve Fund?"
A: "Yes; provided the total amount does not exceed \$5,000."

Q: "How much money do you advance a member each week if he is sick or has met with an accident?"
A: "Five dollars each week if he carries a certificate of \$25 if he carries a \$1,000 certificate."

Q: "Are the Secretary and Treasurer of a lodge elected by the members?"
A: "Yes; all who reside in the same lodge are eligible to office, and are elected by the members."

Q: "How much money do you advance a member each week if he is sick or has met with an accident?"
A: "Five dollars each week if he carries a certificate of \$25 if he carries a \$1,000 certificate."

Q: "Does the term 'incontestable' apply to sick or total disability claims?"
A: "No; only to death claims."
Q: "Can a member be expelled from the order?"
A: "Yes; during the first two years of membership, if obtained by fraudulent statements; but for no other reason."
Q: "What is the advantage of an incontestable policy?"
A: "It guarantees that after a member has paid his assessments and dues for a number of years, his family will receive in the event of his death the protection which they are entitled to."
Q: "If I carry a certificate in either Class, and desire after a time to increase it, shall I be obliged to pass a medical examination?"
A: "Yes; the certificate must be renewed in ten days from date of previous examination."

Q: "Order is based upon principles of Fraternity, equality and security, the order in which a member does not have to die to win."
